Anti human PXR common mouse monoclonal antibody

PXR: Pregnane X receptor, SXR

Code No	PP-H4417-00	In orde	Application / Recommended Concentration In order to obtain the best results, optimal working dilutions should be determined by each individual user.		
Clone No.	H4417	Westerr	n Blot	1ug/mL	
Lot.	A-1	Non red	lucing Western Blot	3ug/mL	
Concentration	1 mg/mL		deling Western Blot	Jug/IIIL	
Volume	100 uL	ELISA		2ug/mL (A450=1.0)	
lg Class	G2a	Immuno	pprecipitation	Decide by use	
Description	Pregnane-activated receptor (PXR,SXR, PAR, PAR1, PAR2, NR1I2) is a member of nuclear receptor subfamily , which each orthologues historically given	Supersh	nift Assay	Not yet tested	
	different names as pregnane-activated receptor in mice and steroid- and xenobiotic-sensing nuclear receptor in human, PXR binds to rifampicin (an	Chroma	itin immunoprecipitatic	Not yet tested	
	antibiotics) is the most efficient activator in human. Various studies revealed PXR regulates CYP3A gene expression as well as other xenobiotic metabolisms, such as oxidation, conjugation and transport. Many chemicals are known to bind for PXR as activators, eg. the HIV protease inhibitor ritonavir, the anticancer drug paclitaxel, the endocrine disruptor bisphenol A. Expression of PXR founds in the liver, small intestine and colon in the human, rabbit and mouse where CYP3A genes are expressed or induced.	Immuno	Immunohistochemistry Not yet tested		
Nomenclature	NR1I 2				
Genbank	AF084645				
Origin	Produced in BALB/c mouse ascites after inoculation with hybridoma of mouse myeloma cells (NS-1) and spleen cells derived from a BALB/c mouse immunized with Baculovirus-expressed recombinant human PXR-1(1-40 aa).	Storage	Store at 2 - 8 °C up to one month. For long-term storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is not recommended. Storage in a frost-free freezer is not recommended.		
Specificity	This antibody specifically recognizes human PXR-1 and PXR-2. Not yet tested in other species.	Reference			
Purification	Ammonium sulfate fractionation	Not			
Formulation	Physiological saline with 0.1% NaN3 as a preservative.	Notes		eact with lead and copper plumbing tal azides. Flush with large amounts sal.	

FOR RESEARCH ONLY. NOT FOR USE IN HUMANS.
