

Anti human LXR beta mouse monoclonal antibody

LXR beta: Liver X Receptor beta

Code No	PP-K8917-00
Clone No.	K8917
Lot.	A-2
Concentration	1 mg/mL
Volume	100 uL
Ig Class	G2a
Description	Liver X receptor beta (LXRb, UR, NER, RIP15, OR-1; NR1H2) is a member of orphan nuclear receptor. LXRb is expressed in a wide variety of tissues (heart, liver, kidney, brain, testis, ovary, adrenal, uterus, prostate, vagina, lung, spleen). LXRs play important role in expression of ABC transporters. The protein is expressed as a 50 kDa nuclear form. LXRb forms heterodimer with RXR.
Nomenclature	NR1H2
Genbank	U07132
Origin	Produced in BALB/c mouse ascites after inoculation with hybridoma of mouse myeloma cells (NS-1) and spleen cells derived from a BALB/c mouse immunized with Baculovirus-expressed recombinant human LXR beta (2-86 aa).
Specificity	This antibody specifically recognizes human LXR beta but does not recognize human LXR alpha. This antibody does not cross react with rat LXR beta. Not yet tested in other species.
Purification	Ammonium sulfate fractionation
Formulation	Physiological saline with 0.1% NaN ₃ as a preservative.

Application / Recommended Concentration

In order to obtain the best results, optimal working dilutions should be determined by each individual user.

Western Blot	2 ug/mL
Non reducing Western Blot	2 ug/mL
ELISA	0.1 ug/mL
Immunoprecipitation	Decide by use
Supershift Assay	Not yet tested
Chromatin immunoprecipitatic	Not yet tested
Immunohistochemistry	Not yet tested

Storage Store at 2 - 8 °C up to one month. For long-term storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is not recommended. Storage in a frost-free freezer is not recommended.
